## Hypothermia Prevention Products

PerSys Medical thermal products are unmatched in the treatment of hypothermia caused by environmental exposure, traumatic injury, blood loss, and other conditions affecting the body's ability to regulate its core temperature.

**PVMS No. 290070**

### Survival Blanket Large Blizzard Blanket

#### Features

- Full length 3-layer blanket
- Reflexcell® material
- TOG 7 warmth
- Front access
- Double sided tape closure
- Hem cinch-cord
- Reusable
- Color: Green
- Vacuum packed

**PVMS No. 290071**

### Survival Blanket With Heat Pack Blizzard Blanket

#### Features

- Full length 3-layer blanket
- Reflexcell® material
- TOG 7 warmth
- Front access
- Double sided tape closure
- Hem cinch-cord
- Reusable
- Color: Green
- Vacuum packed

**PVMS No. 290072**

### Survival Blanket Transport Blizzard Blanket

#### Features

- Full length 3-layer blanket
- Reflexcell® material
- TOG 7 warmth
- Front access
- Double sided tape closure
- Hem cinch-cord
- Reusable
- Color: Green
- Vacuum packed

# Pocket Bag Valve Mask

The Pocket BVM is a revolutionary bag valve mask for manual resuscitation in a compact and durable package.

PVMS No. 290073

Pocket Bag Valve Mask

Pocket BVM

## BENEFITS OF THE POCKET BVM

- Disposable, collapsible, silicone resuscitator
- Reduces cube space by up to 75%
- Compact, never loses its shape
- Withstands extreme storage conditions
- Ruggedized case withstands up to 160psi of direct force
- Easily stores in unconventional locations
- Delivers 500-600cc of oxygen

# Military Tourniquet (Advanced)

PVMS No. 290068

Military Tourniquet (Advanced) | CAT Gen 7 Advanced Tourniquet

---

The patented C-A-T® is a true one-handed tourniquet proven to be 100% effective by the U.S. Army's Institute of Surgical Research. Tests proved that the CAT completely occluded blood flow of an extremity in the event of a traumatic wound with significant hemorrhage.

The Gen 7 CAT utilizes a durable windlass system with a patented free-moving internal band providing true circumferential pressure to the extremity. Once adequately tightened, bleeding will cease and the windlass is locked into place. A hook and loop windlass retention strap is then applied, securing the windlass to maintain pressure during casualty evacuation. The CAT's unique dual securing system avoids the use of screws and clips which can become difficult to operate under survival stress or where fine motor skills are compromised.

- 
- Faster application
  - Fewer windlass turns
  - Effectiveslack removal
  - Simplified training with single protocol directions for all applications
  - Decreased blood loss
-

# Bone Injection Gun (BIG)

PVMS No. 290064

Bone Injection Gun Disposable (Spring Loaded)  
Persys Bone Injection Gun

For emergency resuscitation in life threatening conditions, the B.I.G enables immediate vascular access.

The world's first automatic IO device brings you rapid IO access for the delivery of fluids and medications at flow rates higher than IV infusion. With the help of Bone Injection Gun, IO infusion can be established within seconds with an easy "position and press" mechanism.

## SALIENT FEATURES

- Safe – no direct contact with patient's blood.
- Quick – intravascular access established in <1 min .
- Easy – short learning curve for caregivers.
- Instrument by caregivers as well as patients
- Minimum pain
- Minimal risks of complications
- Plastic, disposable, automatic spring-loaded infusion device
- FDA (adult & pediatric) and CE approvals
- Completely mechanical, no need for any energy source.

When I.V. access is either difficult or impossible, use the B.I.G for simple and effective Intra Osseous infusion on adult and pediatric patients

# Needle for Pneumothorax

PVMS No. 290067

Needle for Pneumothorax (Air Release System)

ARS GA 14 Pneumothorax Needle

Our patented ARS® Needle Decompression Kits are designed to provide the appropriate length needle/catheter to penetrate the pleural space in 99% of patients. With its built-in failsafe characteristics, the ARS® improves the probability of success when treating casualties who present with signs and symptoms of a tension pneumothorax.

Now also available with the same quality and reliability as our current 14 gauge version, the new 10 gauge ARS® provides the option of a needle/catheter that is approximately 60% larger in diameter for those customers looking for a larger gauge needle/catheter. The brown color-coded sterilization band and the catheter hub help to distinguish it from the original 14 gauge version, which is orange.

- Strong, reliable needle/catheter: 10 gauge x 3.25 in.
- Rugged needle/catheter protective tube
- Easy ID textured twist top with handy clip
- Easy-open container for quick access
- Capless flash chamber for immediate confirmation of needle placement
- Convenient, compact size
- U.S. Patents D595,847 and 001002372-0001, Patent(s) Pending

# Kaolin Based Hemostatic Combat Gauze

Based on the revolutionary design of The Emergency Bandage®, PerSys Medical offers multiple options for hemorrhage control. Our family of trauma bandages covers a variety of wounds. All bandages are sterile, vacuum-sealed, and have a best-in-class 8-year shelf life.

QuikClot EMS 4x4 Dressing is a sterile, soft white 4 in. x 4 in. nonwoven hemostatic dressing with X-ray indicator, and is impregnated with kaolin, an inorganic mineral that activates Factor XII,1 which in turn accelerates the body's natural clotting ability.

**PVMS No. 290037**

Kaolin Based Hemostatic Dressing Size 10 cm X 10 cm

[Quikclot EMS 4X4 Dressing](#)

---

Most widely used battle tested product. Used for most bullet and other grevous field injuries resulting in traumatic bleeding

**PVMS No. 290038**

Kaolin Based Hemostatic Combat Gauze 7.5 cm X 350 cm

[Quikclot Combat Gauze](#)

---

World's most effective product for tackling large surface area injuries. IED, Land Mine, Grenade attach. Abdominal injuries, amputations and other large field injuries.

**PVMS No. 290039**

Kaolin Based Hemostatic Rolled Gauze 7.5 cm X 120 cm

[Quikclot Trauma Pad](#)

---

Used for field injuries, large cuts and lacerations resulting in traumatic bleeding. Very effective product for ambulances and first responders.

**PVMS No. 290040**

Kaolin Based Hemostatic Rolled Gauze 7.5 cm X 120 cm

[Quikclot EMS Rolled Gauze](#)

# Chest Seal Dressing with Vent for penetrating wounds

The HyFin® Vent Chest Seal Twin Pack from North American Rescue sets the standard for the prevention, management and treatment of an open and/or tension pneumothorax potentially caused by a penetrating chest trauma. Two seals, each individually packaged, are designed to allow the user to apply a seal to both an entry or an exit wound while also giving the option to only apply one and store the other until needed as the situation requires. This innovative design provides 3-vented channels designed to prevent airflow into the chest cavity during inhalation while allowing air to escape through the vent channels during exhalation. The 3-vent channels are designed to allow blood to escape and also provide a backup fail-safe system, as even if two of the three channels become obstructed, the vent is designed to remain fully operational.

**PVMS No. 290061**

Chest Seal Dressing with Vent for penetrating wounds (Single)  
HyFin Vent Chest Seal Individual Pack

**PVMS No. 290062**

Chest Seal Dressing with Vent for penetrating wounds (Twin Pack)  
HyFin Vent Chest Seal twin pack

- Designed for the prevention, management and treatment of an open and/or tension pneumothorax potentially caused by a penetrating chest trauma
- Two Chest Seals designed for the treatment of both entry/exit or multiple penetrating injuries
- Patented, new design with 3-channel pressure relief vents
- Advanced adhesive technology designed to provide a superior seal in the most adverse conditions, including sweaty or hairy casualties
- Easy-to-grip, large red tab for single step, peel-and-apply application that allows for the burping of the wound if necessary
