# WHAT IS HEMORRHAGE?

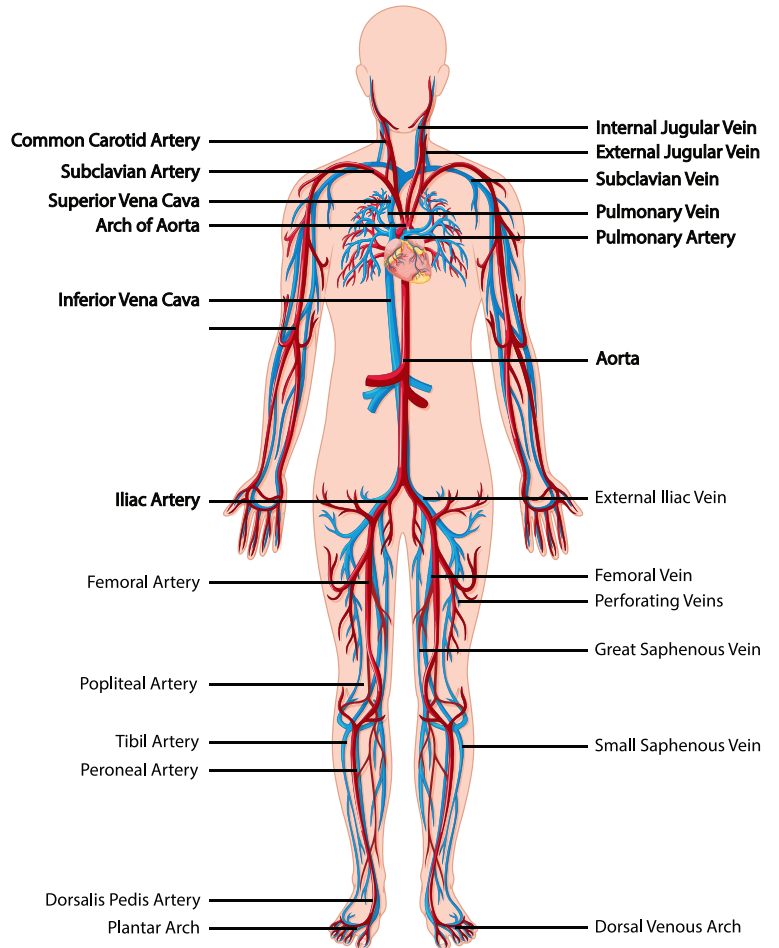

In medical terms, loss of blood from damaged blood vessels. A hemorrhage may be internal or external, and usually involves a lot of bleeding in a short time.

90% of combat deaths occur on the battlefield before the casualty ever reaches a medical treatment facility.

Col. Ron Bellamy

## THE GOLDEN HOUR

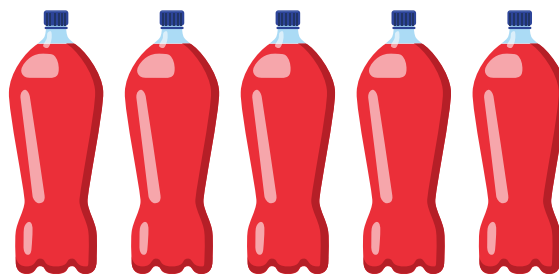

In Emergency medicine, the Golden hour refers to a time period lasting from a few minutes to several hours following traumatic injury being sustained by a casualty, during which there is the highest likelihood that prompt medical treatment will prevent death.

# Hemorrhage and Shock

What happens when you start to Bleed ?

Normal Adult Blood Volume is 5 Liter

Hemorrhage is the quantity of blood loss from the normal that determines the criticality of the injured person.

## Recognizing Shock

- Shock is defined as a failure to deliver adequate oxygen to tissues. In the case of blood loss this occurs both due to loss of blood volume and hemoglobin which carries oxygen in the blood.
- Adults have approximately 5 liters of blood.
- As blood loss increases, physiologic changes will become more prominent and more severe

## Stages of Shock

### Stages 1

- Loss of <15 %
- Symptoms :-
- Normal BP
- Normal Heart rate
- Anxiety can be variable

### Stages 2

- 15-30% volume loss (750-1500 ml)
- Symptoms and Signs:
- Elevated heart rate (> 100 BPM)
- Normal blood pressure
- Increased respirations
- Anxious or restless
- Mental status maintained

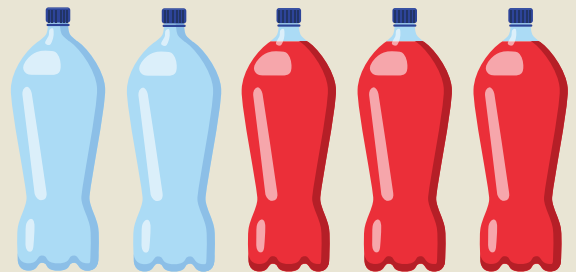

### Stages 3

- 30-40% volume loss (1500-2000 ml)
- Systolic BP begins to fall but can be variable
- Pronounced heart rate increases > 120 BPM
- Pronounced increase in respiration >30 RPM
- Sweating and cool skin

### Stages 4

- >40% Volume loss (>2000 ml)
- Symptoms and Signs
- Marked decrease in systolic BP
- Marked increase in heart rate >140 BPM
- Lethargy , loss of consciousness.
- Cardiac arrest

## HISTORY

- First Care Products (FCP) was established in 1995 in Israel
- 1998 – French & Belgian NATO Forces in Bosnia
- Golden Standard in military emergency car was established

# Emergency Compression Bandage

Working with NATO & EU  
Leading militaries worldwide  
(USA, UK, Germany, France  
and many others)

Saves time,  
saves costs,  
saves lives

Fast and Easy to use by  
professional and non-  
professional (and self use)

## Special Features

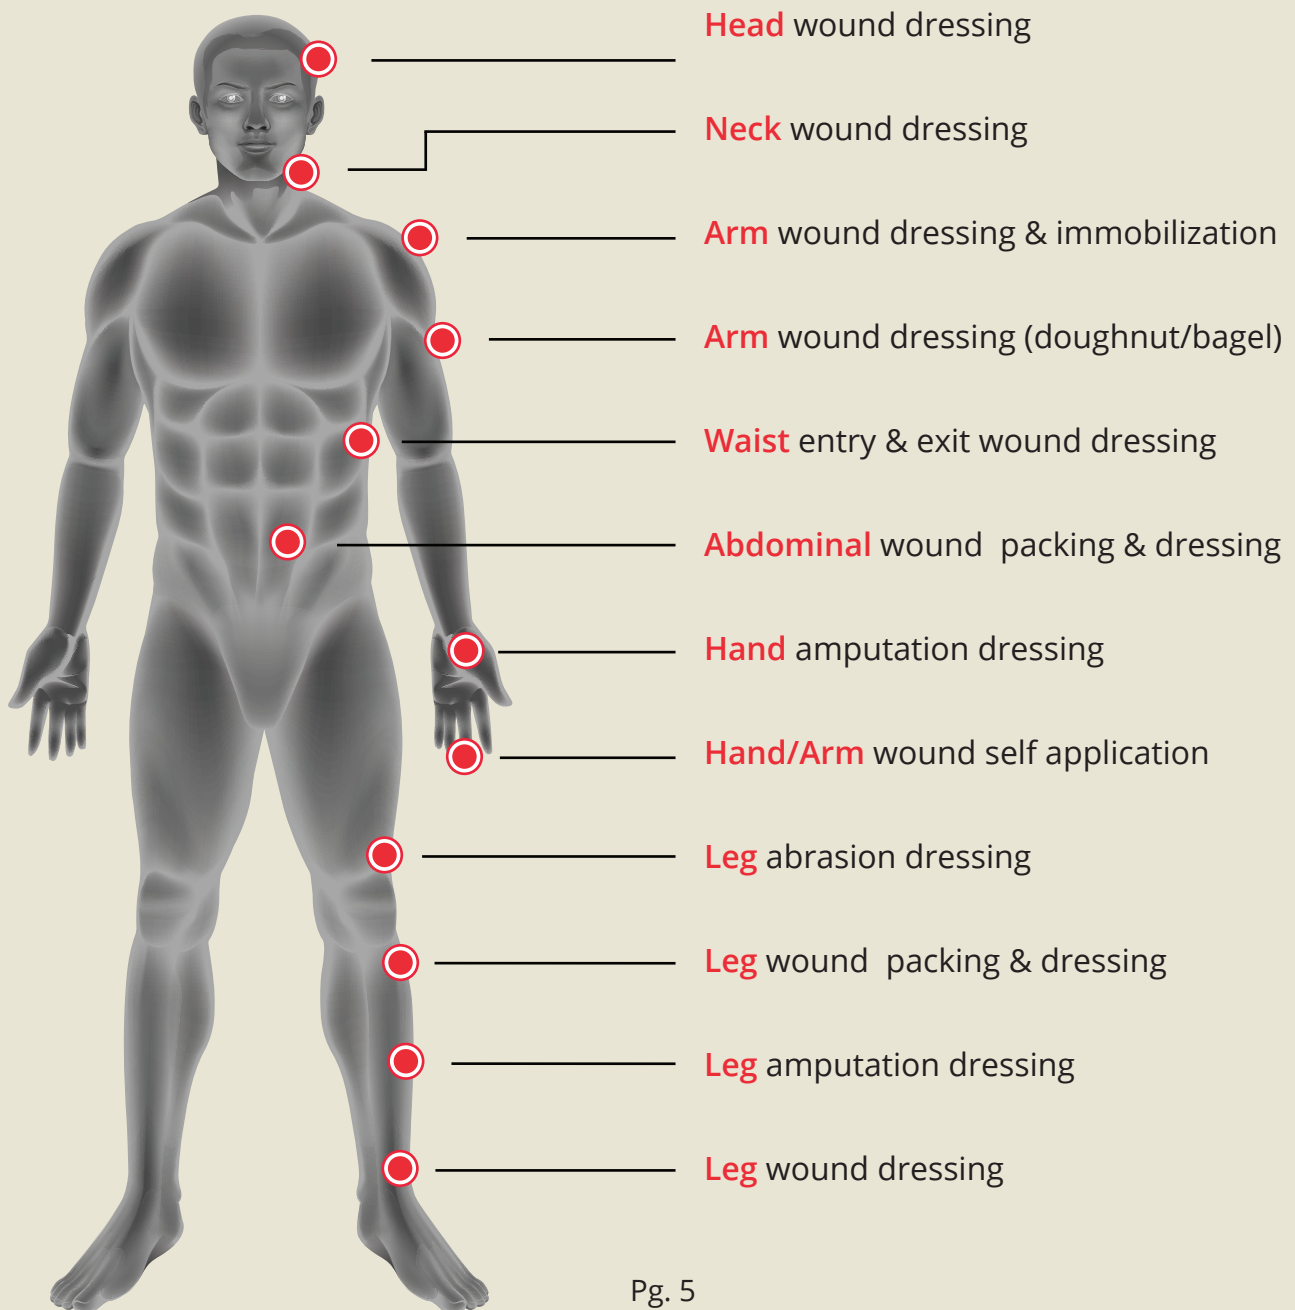

- Compact, Light-Weight, Waterproof, Vacuum-sealed packaging
- Simple to open
- Outer packaging (and nylon FCP09+) can be used as a sterile surface (e.g. as a work surface, exposed brain, to keep wound dry/rain)
- Pressure Bar
  - Immediate direct pressure to the wound site
  - Used to easily change directions
- Stop & Go Release
- Closure Bar, 'pen in a pocket'
- Loop – self application

# Available Bandages

## 5 available FCP Emergency Bandages:

- FCP-01 – 10cm x 450cm (when stretched) Direct Pressure Dressing
- FCP-02 – 15cm x 450cm Direct Pressure Dressing x 450cm Direct Pressure Dressing
- FCP-05 – 15cm x 450cm Direct Pressure Dressing w/ 2nd mobile pad
- FCP-09 – 30cm x 600cm Abdominal/Large Area Wound Dressing, 'The Multi Bandage'
- FCP-T3 – 4" (10.16cm) customizable bandage with expandable pad and additional

## Areas to use the Emergency Bandage?

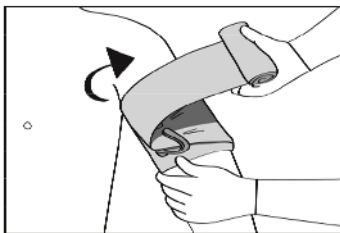

# Bandage Application

1

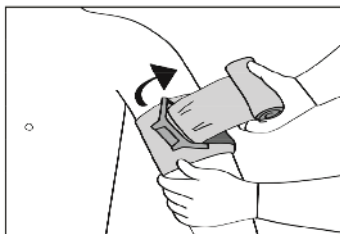

Position: Wound in between pressure bar and label

2

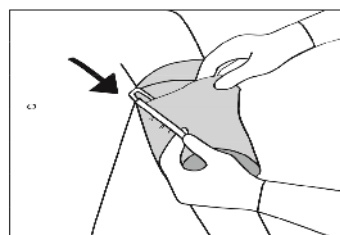

Insert elastic leader into Pressure Bar

3

Pull back forcing Pressure Bar down onto wound

4

Wrap over all edges of the pad and Closure Bar

## Training Tips

- Work Close
- Ensure bandaging is done above and below PB to ensure pressure and sterility of wound
- Closure Bar – Like a pen in a pocket – one side is enough
- Blood on edges, use Additional Pressure (3 stages)
  1. Standard, *if bleeding continues*
  2. Optional: Single/candy twist, *if bleeding continues*
  3. Twists – tourniquet effect

# Summary

Applies immediate pressure on the wound to stop bleeding

---

Flexible - used on difficult wound sites

---

Increase pressure when needed (3 stages)

---

Can be used to change direction

---

Saves time, saves money, saves lives

**CERTIFICATE TO FOREIGN GOVERNMENT**

In order to allow the importation of United States products into foreign countries, the U.S. Food and Drug Administration (FDA) certifies the following information concerning the product(s) to be exported listed below:

Name of Product(s)	Name of Manufacturer/Distributor, Address
See Attached List	See Attached List
(Two Pages)	(One Page)

The product(s) described above (and the manufacturing/distribution site(s) which produces/distributes it) is/are subject to the jurisdiction of the FDA under the Federal Food, Drug, and Cosmetic Act.

It is certified that the above product(s) may be marketed in, and legally imported from, the United States of America at this time. The manufacturing plant(s) in which the product(s) is produced is/are subject to periodic inspections. The last such inspection showed that the plant(s), at that time, appeared to be in substantial compliance with current good manufacturing practice requirements for the product(s) listed above.

Sincerely,  
  
CDR Cesar A. Perez, PhD, Director  
DRP2: Division of Establishment Support  
Office of Regulatory Programs  
Office of Product Evaluation and Quality  
Center for Devices and Radiological Health  
U.S. Food and Drug Administration, DHHS

This certificate is valid from October 30, 2019 to October 29, 2021.

**Presafe**  
Approved & Notified  
Company

## EC Certificate Production Quality Assurance

Certificate No: 11408-2917-CE-NOR-NA-PS Rev. 0.0    Project No: PRJC-405489-2012-PRC-NOR    Valid Until: 01 October 2020

**Terms and conditions**

The certificate is subject to the following terms and conditions:

- Any producer (see 2001/85/EC for a precise definition) is liable for damage caused by a defect in his product(s), in accordance with directive 85/374/EEC, as amended, concerning liability of defective products.
- The certificate is only valid for the products and/or manufacturing premises listed above.
- The Manufacturer shall fulfil the obligations arising out of the quality system as approved and uphold it so that it remains adequate and efficient.
- The Manufacturer shall inform Presafe of any intended updating of the quality system and Presafe will assess the changes and decide if the certificate remains valid.
- Periodical audits will be held, in order to verify that the Manufacturer maintains and applies the quality system. Presafe reserves the right, on a spot basis or based on suspicion, to pay unannounced visits.

The following may render this Certificate invalid:

- Changes in the quality system affecting production.
- Periodical audits not held within the allowed time window.

**Conformity declaration and marking of product**

When meeting with the terms and conditions above, the producer may draw up an EC declaration of conformity and legally affix the CE mark followed by the Notified Body identification number of Presafe.
