- Can be used for Heat Deflection, Wind, Rain Barrier
- Body Heat Insulation, Rescue Signal
- Protects against rain, wind and snow
- Prevent hypothermia by insulating body heat
- Waterproof
- Size :1.2X2.4 Mtr

Survival Jacket and Blanket

Hypothermia Prevention Products

PerSys Medical thermal products are unmatched in the treatment of hypothermia caused by environmental exposure, traumatic injury, blood loss, and other conditions affecting the body's ability to regulate its core temperature.

FEATURES

- 3-layer halflength jacket
- Secure hook & loop closure
- Hem cinch-cord
- Reflexcell® material
- Waterproof
- Reusable
- Available color: Orange
- Vacuum packed

Survival Blanket Large Blizzard Blanket

Features

- Full length 3-layer blanket
- Reflexcell® material
- TOG 7 warmth
- Front access
- Double sided tape closure
- Hem cinch-cord
- Reusable
- Color: Green
- Vacuum packed

Kaolin Based Hemostatic Combat Gauze

QuikClot EMS 4x4 Dressing is a sterile, soft white 4 in. x 4 in. nonwoven hemostatic dressing with X-ray indicator, and is impregnated with kaolin, an inorganic mineral that activates Factor XII,1 which in turn accelerates the body's natural clotting ability.

Kaolin Based Hemostatic Dressing Size 10 cm X 10 cm Quikclot EMS 4X4 Dressing

Tourniquet (Advanced)

CAT Gen 7 Advanced Tourniquet

The Gen 7 CAT utilizes a durable windlass system with a patented free-moving internal band providing true circumferential pressure to the extremity. Once adequately tightened, bleeding will cease and the windlass is locked into place. A hook and loop windlass retention strap is then applied, securing the windlass to maintain pressure during casualty evacuation. The CAT's unique dual securing system avoids the use of screws and clips which can become difficult to operate under survival stress or where fine motor skills are compromised.

-
- Faster application
 - Fewer windlass turns
 - Effective slack removal
 - Simplified training with single protocol directions for all applications
 - Decreased blood loss
-

Pocket Bag Valve Mask

The Pocket BVM is a revolutionary bag valve mask for manual resuscitation in a compact and durable package.

Pocket Bag Valve Mask

Pocket BVM

BENEFITS OF THE POCKET BVM

- Disposable, collapsible, silicone resuscitator
- Reduces cube space by up to 75%
- Compact, never loses its shape
- Withstands extreme storage conditions
- Ruggedized case withstands up to 160psi of direct force
- Easily stores in unconventional locations
- Delivers 500-600cc of oxygen

Wooden Padded Board Splint Set

FEATURES

- Solid wood core
- Safe rounded corners
- Foam on one side
- Covered and sealed with orange reusable vinyl

Neck Collar

The adjustable neck collar has wide solid chin support and a foam pad. There are a large tracheal space and a posterior ventilation opening for intubation. The adjustable neck collar can be easily cleaned and disinfected. The adjustable neck collar does not take up much space in the ambulance.
